

Amelia and Lily: A Tale of Friendship and Fun

I Thank my parents, mainly my mother, and my brother for inspiring me with this idea for the book.

**In a faraway land, there stands a town
named Bellington.**

In the lively city of Bellington, two girls live very different lives.

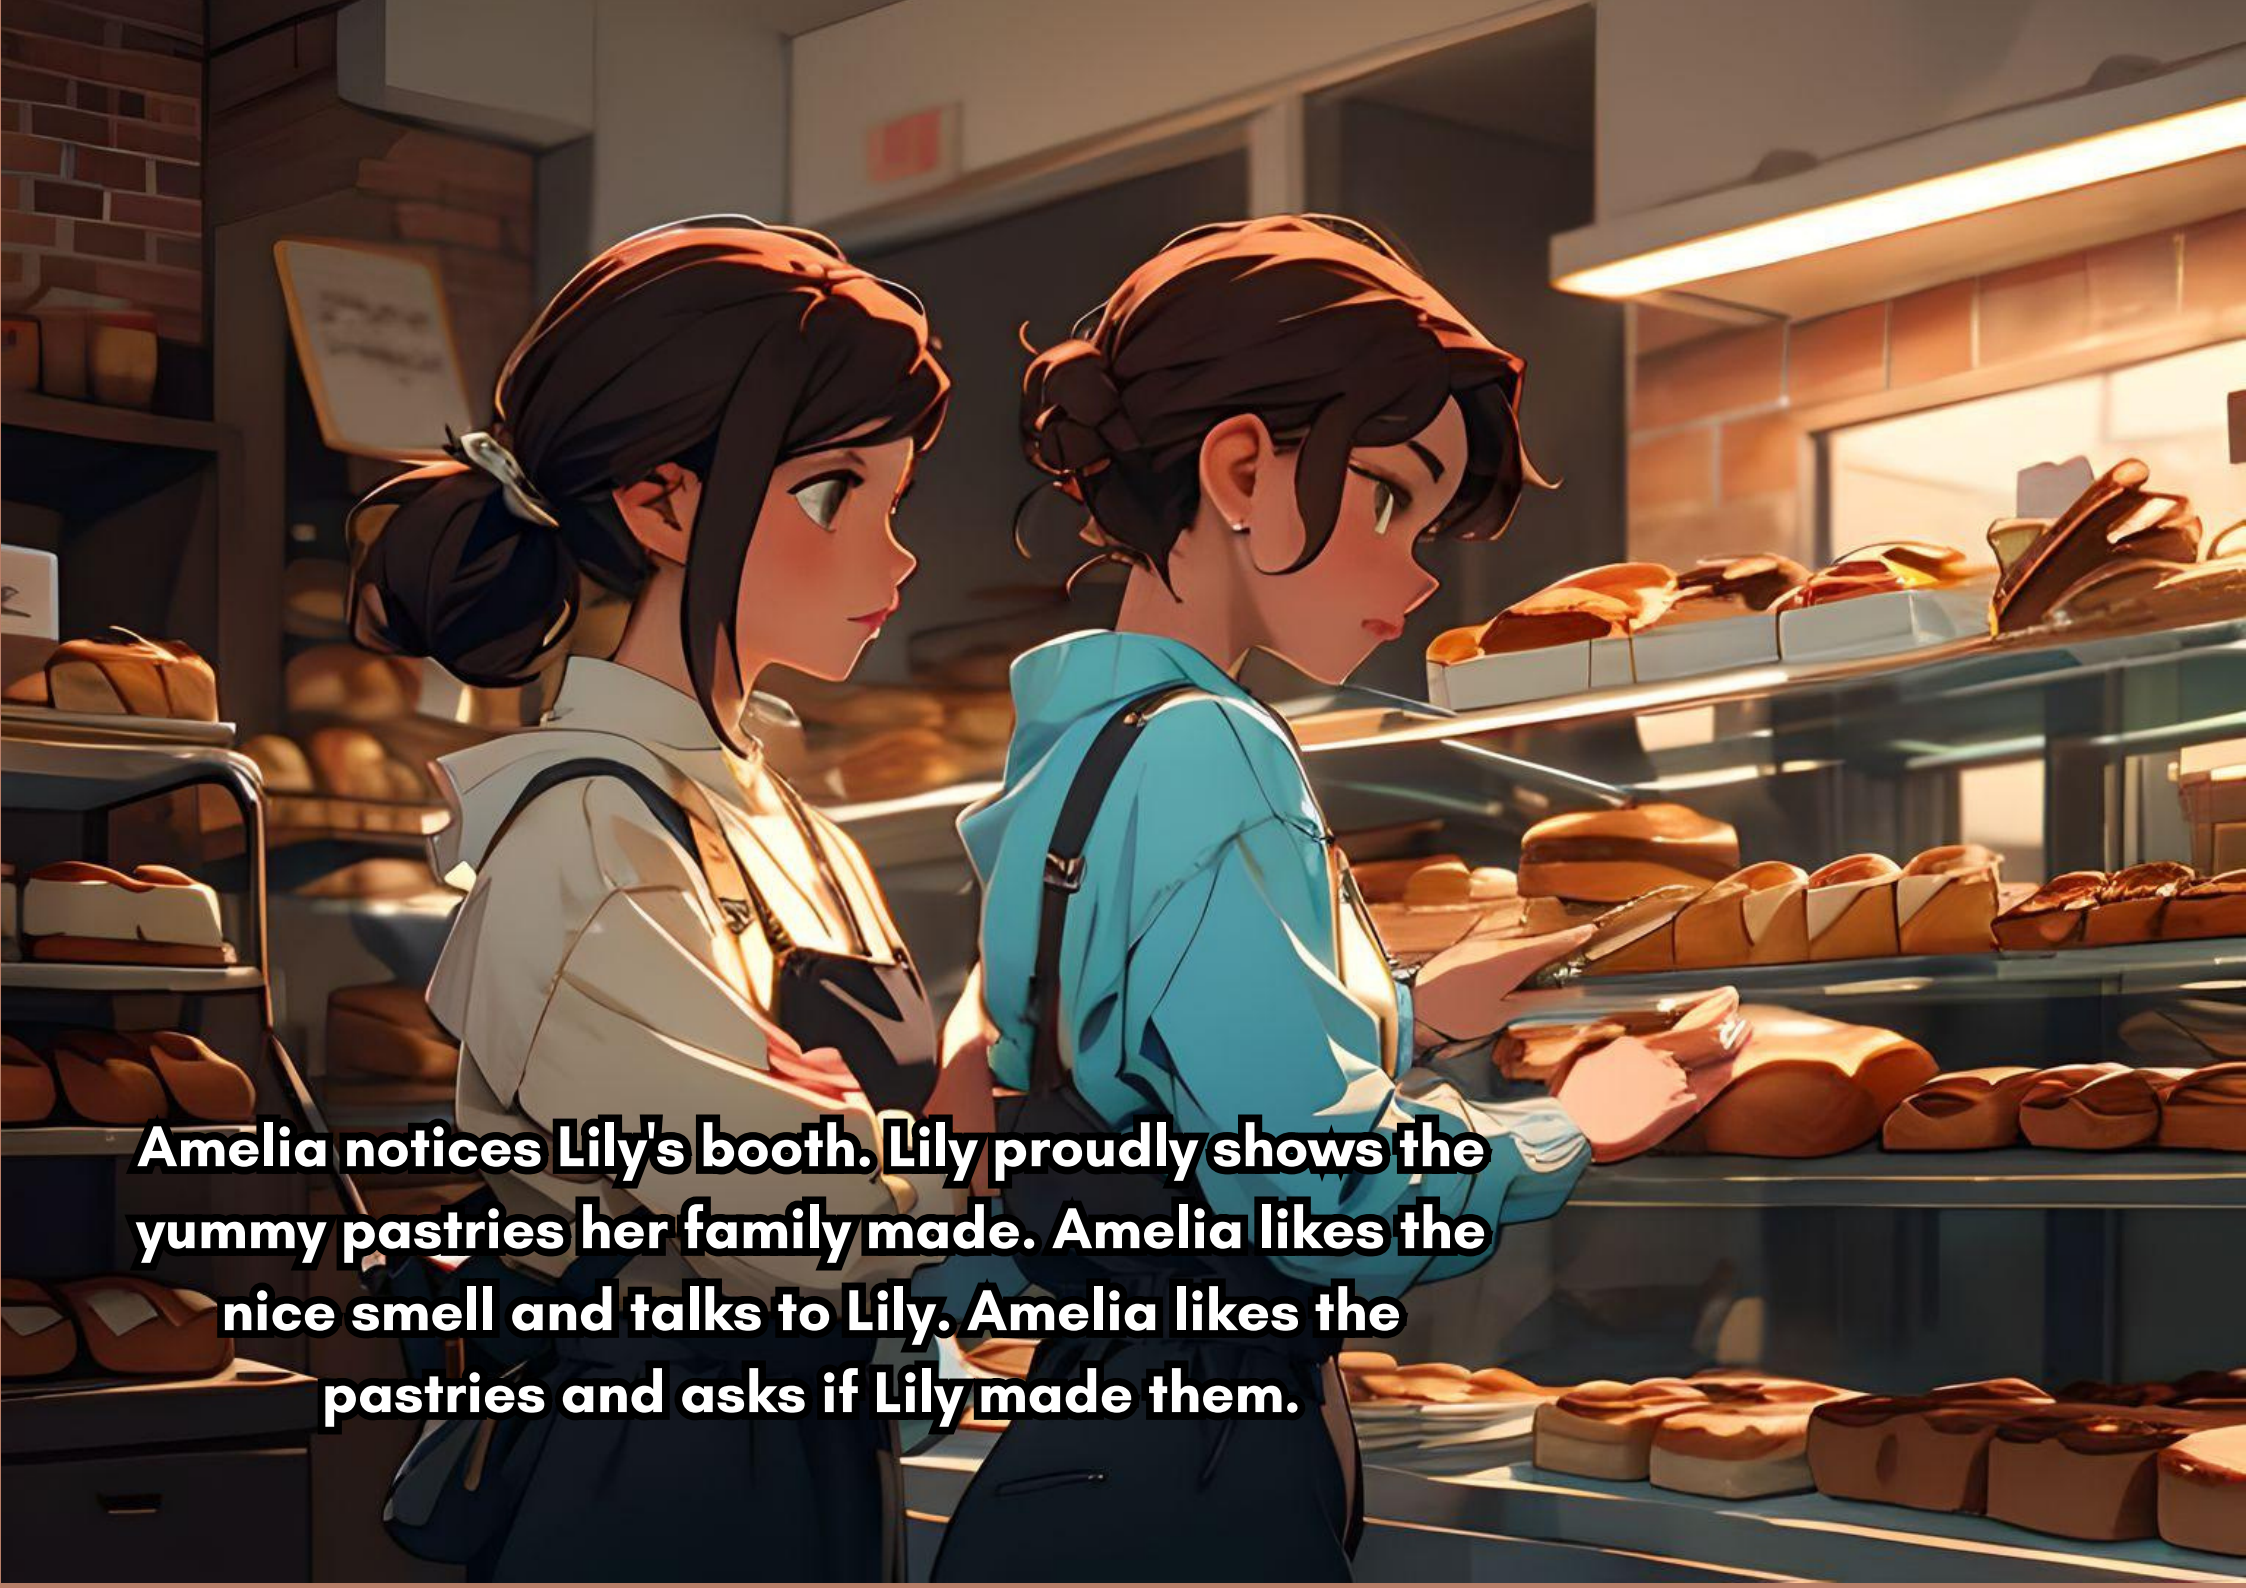

Amelia lives in a big house with gardens because her family has lots of money. She wears pretty dresses, goes to parties, and learns many things.

Lily lives on the other side of town. She helps her family in their bakery and smells yummy bread all the time. Even though Lily's family doesn't have much money, they're happy together.

One sunny day, a special event happens in Bellington. Amelia goes there, talks to friends, and looks at things.

Amelia notices Lily's booth. Lily proudly shows the yummy pastries her family made. Amelia likes the nice smell and talks to Lily. Amelia likes the pastries and asks if Lily made them.

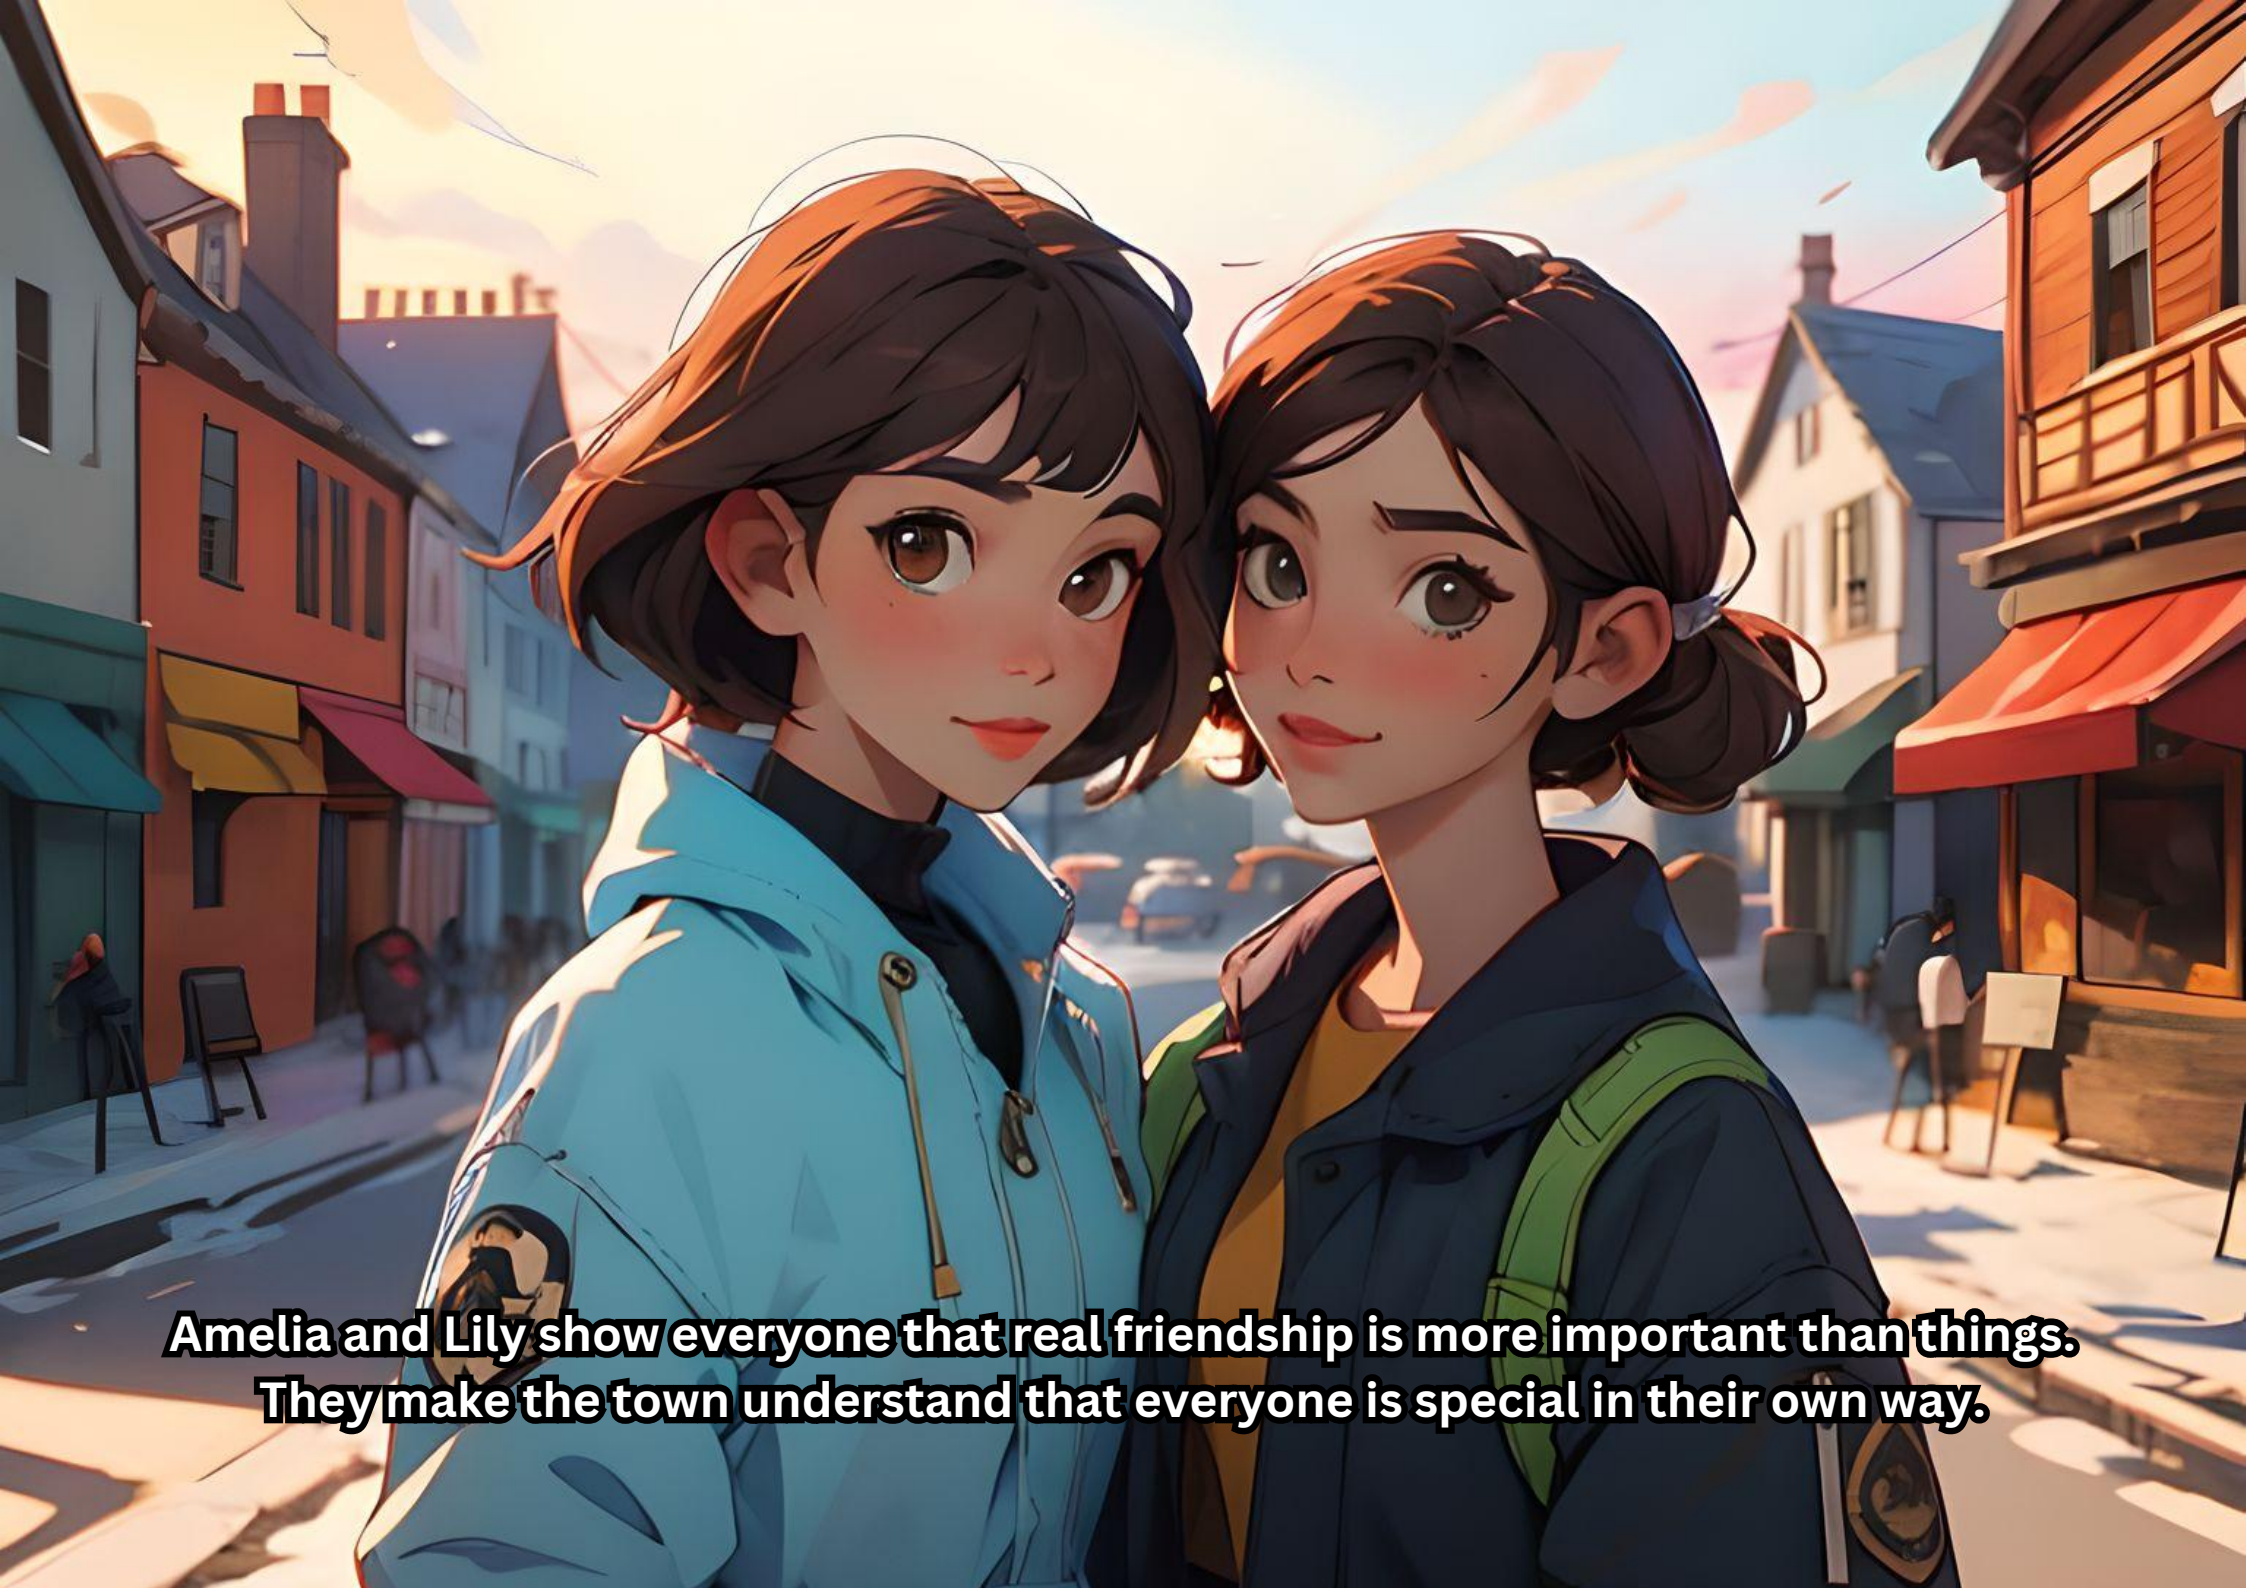

Lily happily nods and tells Amelia about her bakery. Amelia thinks Lily is amazing. They become good friends and share things. Amelia teaches Lily about books and art, while Lily teaches Amelia about working hard and having fun.

Amelia invites Lily to her big party, but Lily feels a bit unsure. Amelia tells Lily that their friendship is most important, so Lily goes to the party.

**At the party, they dance happily.
People are surprised to see them as friends because they're different.**

Amelia and Lily show everyone that real friendship is more important than things. They make the town understand that everyone is special in their own way.

In the end, Amelia and Lily teach us that true happiness comes from being kind and sharing moments with friends.

This story teaches about friendship, kindness, sharing, and enjoying simple things.

About the author

**Annaliya Bintu is a 2nd Grade student
studying at The Central School, Dubai**

"Follow Amelia and Lily on their journey of friendship, where differences don't matter, kindness shines, and simple joys bring happiness."
