

# Archers Place

My name is Archer and this is my place. I like being named after fierce and unique and warriors. I am 10 years old which is 520 weeks plus a bit which is 3640 days plus a bit which is a lot of days.

I was born in the hospital but I didn't want to come out so they cut my mum's belly open this is not normal! I love my good old brain. When I grow up I want to be successful soccer player and inventor. 1) it fits my personality  
2) I'd love to be rich.

**MWAHAHA!!!**

My friends and family are very important to me.

This is my favorite sport. I normally play in a defensive position like goalkeeper or defensive midfield.

My favourite soccer team is Melbourne City there really good but my favourite soccer player is Messi. He plays for PSG

This is my family. I live with my mum dad and little brother. This is my dad he is a soccer star as he played for Australia in futsal. (indoor soccer). My mum is the veggie queen (I think she's allergic to anything else). Finn does not like me reading even though I love reading I like my little bro more. My bunny Harry is so caring, loving and his quicker than a cheetah who saw a ghost. (He's tried to have kids with a basketball).

Basketball

Harry

# My Place

My Nickname  
for this street -  
Bomb street

My  
House

Where I  
sometimes  
ride my bike

Where  
the dog  
race track  
used to be

This is a map of my place. My house is right at the end of the court. it is the 7th house I've lived in and I got my first pet here. I live in Diamond Creek. the street behind me must have a nuclear bomb go off every minute,

it is so loud, I've watched videos about nukes. I am ready to be incinerated.

Near my court is an old dog race track it was very surprising to hear this.

**This is my culture. Before my ancestors took a unique journey from England to the Australia many many years ago as it happens I only have religious-based traditions like this stuff or Christmas celebrations is that I celebrate New Years every year family and friends I was told my great grandfather fought in the war and once you got attacked with Shrapnel because of it he went to hospital that monkeys would have climb into would you believe that you think that you believe that I speak English**

**These are my family rules my family is unique because everyone of us is unique in our own way but we also have similarities like most of my family like soccer I want to be smart as I am because she has the brain in the family apparently apparently and he took some of her brain cells in as well as thanks to go I have my family or unique because of you my mum always says to be grateful for I have.**

“BE

GRATEFUL

FOR WHAT

YOU HAVE”

**In this kitchen and expert cook is always at work  
aka my grandma today she seems to be making  
white paper rolls let's have a look Shall we.**

**Method: 1 put the white paper in a pan that has a  
warm water in it just enough to send merge the  
white paper fully leave it in there for around 20  
seconds then take it out make sure you have a  
suitable surface to place it on and then then put the  
noodles on which you should have done at same  
time 2 cook the noodles for 2 minutes hot I'm finally  
number three what's your feelings in and roll it up  
done.**

THANKS TO EVERYONE WHO SUPPORTED  
SUPPORTED ME ON THIS JOURNEY  
PARTICULARLY MY SCHOOL ST.MARY'S

STOP!!! PUT THIS BOOK BACK DOWN!!!  
IT IS OFF LIMITS!!!

Ok if you must then you should know  
this is a book of me.  
Read If You Dare...
