

CAITLIN'S LIFE

WRITTEN AND
ILLUSTRATED BY
CAITLIN NORRIS

My name is Caitlin and this is my place. I am 9 years old, and my star sign is Virgo but I'll talk about that in a sec. So I was born in Melbourne and my birthday is the 9th of September so I'm a typical Virgo. I have blue eyes, in my left eye I have a special strip of brown.

This is my family. I live with my mum my dad, brother and dog. This is my mum she's great at tennis and loves watching Survivor. This my dad he always has to at least say two dad jokes a day, and is always watching the NBA. Next is my brother he's always playing on devices and has a passion for basketball. Last but not least is Kobe he's a puppy that's silly, cute and a bit yappy.

This is a map of my place.
My house is right in the
middle of my street, it's
the one story brick house.
It's the one with the
puppy in the stud
window.

I live close to my school but it's not close enough to walk. My house is busy as a bee hive on school morning's, and it's messy as a zoo. I know my neighbors because my brother always throws the basketball over the fence. I know one of my neighbors a bit more than the other because there son goes to my school. I have a walk in closet, I like to think it has a portal to the best lollie shop in the world.

This is my culture. My Mum and Dad are English, and there ancestors came from England, Scotland, Ireland and Germany.

One of my favorite family tradition is when every New years we go to one of my dad's friend's house, and swim in their pool. The best part is seeing the fireworks. I love Christmas because I like to think I'm a princess when I get into my dress and do my hair. On Christmas eve I go to my grandpa's house. At christmas I go my Nana's house and one of my cousins houses for my Gran's Christmas.

Mums Potatoe salad

- 1: Cook bacon in a fry pan with a drisle of olive oil until slitly brown and set aside.
- 2: Boil chopped potatoes until slitly tender, and let cool.
- 3: Mix in a bowl bacon, cooked potatoes, mayonaise and spring onions. Enjoy

These are my family rules. Being apart of my family is great because you have people to count on and love. I've learnt to love myself no matter what, and it doesn't matter what you look like because you have love and family.

My family's manly unique because we don't care what people look like it's just about their inside, like if their nice or not.

Family is
Everything

This is my story. A story
about me my family, food
and best of all love.
Have you ever
wondered what
it's like to be me, well
you can now. Get ready to
jump into my life. In my
house family's everything.
