

Furball's Great Adventure

By: Cleo Bourazikas

**To Mum,
thanks for
being a great
parent.**

**One summer morning, Furball was
sleeping in her nice warm bed.**

**Lady Bug landed on Furball, and
woke her up. She meowed and
jumped up.**

Lady Bug asked Furball to come and walk with her. Furball followed Lady Bug down the street.

**Lady Bug flew to the airport and Furball
followed. Furball boarded a plane with her
friend.**

**Furball could smell different things in the plane.
She jumped onto a chair and buckled up.**

The chair was nice and soft so Furball fell asleep very quickly. Lady Bug just stood atop of the chair looking out of the window.

Furball felt like she had been sleeping for ages, in reality it was only 2 hours.

Furball jumped off the plane, she was in Sydney!

**It was warm and sunny at the airport. Furball
ran around in the sun while Lady Bug flew.**

**Furball ran to a car and jumped in the back
then a person closed the car boot then they
started to drive away.**

**The car stopped and the boot opened. Furball
jumped out of the car and ran away.**

Furball and Lady bug were walking along the path when they saw a bunny, the bunny just stared at them for ages.

**Finally the bunny said hello. "Hello, I'm Dj". "Hi
Dj", said Furball.**

Dj, Furball and Lady bug became friends very quickly. They went everywhere together.

Furball and Lady bug wanted to go back to Melbourne. Dj wanted to go with them to see what Melbourne was like.

**Furball, Lady bug and Dj went to the airport so
they could hop on a plane, but no planes were
flying anywhere.**

**No planes were flying anywhere for weeks,
but Furball, Lady bug and Dj wanted to go to
Melbourne.**

Furball, Lady bug and Dj were really sad that they couldn't go to Melbourne. But they were going to work out a way that they could go back to Melbourne. They were not going to give up until they got home.

**Furball thought of an idea, she thought that
they could build a plane so that they could go
to Melbourne.**

**Lady bug and Dj though it was a great idea
but they had no resources to build it.**

**Furball, Lady bug and Dj looked for
resources, for ages they only found a few
metal scraps.**

**They tried to build a little plane but
they still didn't have enough metal and
other resources to build it.**

They went to get more resources. They collected a lot more. On the the way back to the metal scraps they found a lizard called Scales.

Scales ran after them, back to the other scrap metal. They all tried to make the plane but it would not stay together, so they were going to try again the next day.

**The next morning was cold and rainy, so they
snuggled up together to keep warm.**

When they got up, some of the stuff was not there! They looked around but they could not find the it, they noticed that Scales was gone as well, so they thought that Scales might of taken the stuff.

They went out to find more stuff and tried to find Scales. They went back to the spot where they found Scales, but he was not there. They had lost one of their friends!

They found some of the stuff that had gone missing. They followed the path of stuff and found Scales at the end of the path. They got their stuff back they went back to the other things.

"What are you doing?", Furball asked Scales.
"I tried to make a plane and surprise you but I
couldn't", said Scales.

**They took all the stuff back and then it
started to rain, they went undercover
so they didn't get wet.**

It was raining for a few hours then they went to sleep because it was getting dark.

In the morning it started to get sunny and warm so Furball went to get some food.

**Furball found some fish and took it back to
her friends. Then they tried to make make a
plane again, they still didn't just didn't have
enough stuff.**

The next day they tried to build the plane again and they made one. It looked super cool and they could not wait until they could fly it.

The next day they tried to fly the plane off a high building. It worked! It flew! They were flying to Melbourne, they were so happy.

After 12 hours they got to Melbourne. They made it! They jumped of the plane and ran around, they were so happy.

The End

About The Authour

Cleo is a student at Lower Plenty Primary School, she is 9 years old and she is in grade 4, she lives in Melbourne, Australia. Cleo thinks kindness is a very important trait and wants to spread that message around the world. She treats her class-mates with kindness and respect. Cleo worked very hard on her book and hopes you really like it.

About The Book

Furball and her friend Bug go on a plane and can't get back to Melbourne. Will they end up getting back to Melbourne or not? Read the book to see.
