

LEXI AND THE MARINE LIFE

BY: SREE DHRUTHI

**I would like to dedicate this
book to my family and my
freinds who really helped
me to make this moral book.**

Lexi is drawing about the ocean life. She loves the ocean because of the colorful water bodies.

Lexi's family thought to go to a beach.

Lexi was incredibly happy.

When the day comes.

Lexi packs her bag with a sea book snacks like fish biscuits and her swimming costume, a small seashell box, camera, and some plastic covers.

After an hour Lexi and her family started moving to the beach. Once they reached her father said children, we have reached to the beach so, take your things and get down I will be coming after I park the car.

Lexi was the first to get
down she rushed and
went to the bathroom to
change her costume.

Her parents were found a better spot to sit.

Lexi and her sibling were playing in ocean. Lexi took her camera because she found Guppies. She clicked it so fast, Lexi was happy.

She rushed to the place where her parents were sitting,
she quickly opened her ocean book from the bag and
was reading about guppies she was whispering to
herself. She said

the guppy, also known as million fish and rainbow fish, is one of the world's most widely distributed tropical fish and one of the most popular freshwater aquarium fish species. It is a member of the family Poeciliidae and, like almost all-American members of the family, is live-bearing.

After a while,

**her mother said OK, Lexi will come with me
for picking up the shells and Ben go with
dad for getting some kites.**

Lexi started to pick some types of shells for her mother.and those which were incredibly beautiful and shiny shells she picked it for herself.

After eating, playing the
time passes and it was
almost evening

The family was very hungry they shifted
their mat near the sea. They started to
eat their snacks all of them were
growing plastic and dirty things except
for, in fact the people who were eating
also threw many plastics and dirty
things.

Lexi started picking up the plastic
and said each of them in the
beach that we should not throw
plastic or else the water bodies
would die .

she took her rough book
and tape, she started to
make posters on not to
throw plastic.

The people and lifeguard rewarded her a
thankyou and a small present as she was helping
the water bodies.

Lexi was a helpful
and animal lover little
girl.
