

My house

**Written and Illustrated by Isabella
yendall**

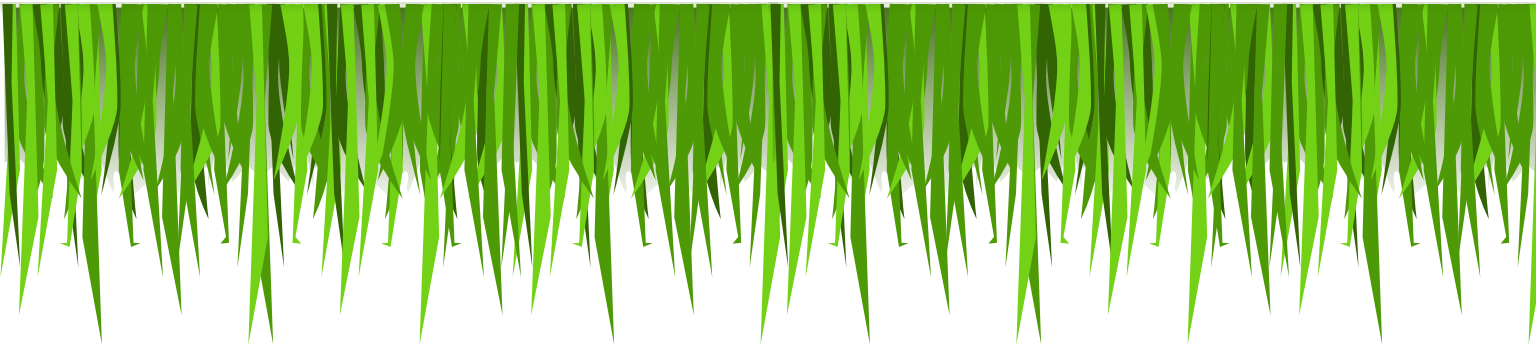

Hi my name is Isabella Yendall. I am 9 years old, and my birthday is September the 9th. I was born in 2012 and I live happily in Australia. I like meeting friends and new teachers. I like swimming, and my bad habit is being a chatterbox. To be honest with you it's not that bad of a habit! I want to be a singer like my teacher she is a very good singer. I want to be like her when I grow up.

I am kind and sweet to everyone.

This is my family. This is my cousin Peyton she is the cutest baby I've ever seen I love when she puts her fingers in her mouth, it makes everyone laugh.

Then there is my mum and dad. They both are good cooks and are hard working bees, and for that I am so proud of them.

Reece is my brother and we fight like karate kids but we love playing minecraft when were not too busy fighting. I have a dog that is sick a lot he's name is Rocky he's so cute. When me and my family are all together we are kind, funny and we always laugh. My mum thinks the word 'dude' is hilarious and my mum's favourite saying is "Time for bed".

This is my map of my place. I live in a two storey house, it is small as a pea. I like to play in the bedroom and walk to the local shop. I just moved here. I live far away from school. My street's name is Waxflower. My neighbours just moved to their house and it's already like a bee hive! it is very noisy but they are kind and sweet. My street is busy because it is near the freeway.

This is my culture. My Mum is Mauritian and my Dad is Australian. One special occasion that we celebrate is Diwali we dress in Indian dress and throw Holi powder, I love this celebration because it's very fun. I like to eat rice, dhal, potatoes and green beans. I speak French. Mum's side taught me how to speak French. I have a very cool culture that I'm proud to have.

These are my family rules.

We are always respectful towards each other because of our different interests and skills. I have learnt how to cook and be kind to people. My family is amazing because we show enthusiasm.

My family's golden rule is to be kind

In this kitchen, you will find me and my mum cooking my favorite curry fish. I love this meal because it's been passed down generations from my mom's side. Every time me and my brother smell the amazing curry fish we come racing down.
