

# Rose's Journey

Dedicated to my  
grandparents  
Patricia and Arthur  
Keenan

Hi, my name is Rose  
Burke and I am moving  
to Australia, from  
Northern Ireland to be  
with my Partner, Danny  
Keenan.

But before she could go, she had one last game of comogie\* to play.

\*Comogie is like hockey played only by girls

One day in November 1969, Rose flew to London where she stayed the night with her Uncle Phil

The next day Rose's Uncle took her too the airport. And she was off to Australia!!

When Rose arrived at the airport, she couldn't see Danny anywhere! But before Rose had time to look for him, the immigration society that she was supposed to be going with found her.

But when she tried to tell them that she needed to find her Danny they couldn't really understand her irish accent, and she had to keep repeating things

Could you help me please?

Rose arrived on Cup day 1969,  
the Melbourne Races, where  
people were dressed in crazy  
40 degree heat (much hotter  
than Ireland)

When she FINALLY found  
him they were so excited  
to see each other that  
they didn't know what to  
say

After a few month of living in Australia, with Danny always working, Rose started to feel lonely.

To make new friends, Rose got a job as a teacher at Parade College, where she made a lot of friends, like her fellow teachers, and the students.

A year after moving to  
Australia Danny and Rose  
got Married!

Rose a few years after that,  
Rose and Danny had a son,  
who they called Sean. They  
had then a daughter,  
Narelle, and then three  
more sons; Kevin, Derren  
and Emmet

Rose and Danny have  
now lived in Australia  
for over fifty years. they  
raised their family here  
and now have 10  
grandchildren.

'Rose's Journey' tells us that we need to be brave and ready to try something new. As Rose travels across the Earth, she builds a different lifestyle, ready to start a new life on the other side of the planet. Embark on an Outrageous adventure with Rose as she learns the high's and low's of immigrating to Australia
