

THE MISSING BOOTS

By Ruby

I thank my parents and my teacher
for helping me create this book.

Ava and Saidee woke up and got dressed then they ate breakfast. Saidee put on her yellow boots but Ava could not find one of hers. They looked around hoping to find the lost boot. Ava's boot looked like Saidee's yellow boots too.

We have a neighbour Vita. We share a spacecraft that is split in half. We wanted to ask her where the boot was so we knocked on her window. She was sleeping so we did not want to bother her.

We went on with our morning and could not find the
boot. We were ready and just waiting for that one
boot.

Where could it be ??

We knocked again, this time Vita was awake. We talked to her about the boot but she had not seen it. We searched anyway. Soon enough, Vita told us that her friend Bell was coming over.

Bell came to visit and had some tea and cookies. She said that there was a boot just floating around the spacecraft so she pulled it in and passed it to Vita.

Vita, all of a sudden, started laughing .Vita said to Bell, "Ava will tell you what happened." So she told everyone what had happened and how the boot got lost.

Ava said, "I am not sure how that just got out. It will not happen again."

Bell said, "No problem at all."

Then we chatted about what had happened to Ava. We all had a laugh talking about that lost boot.

We went out and had a
delicious lunch together.

We had not even thought to look outside the spacecraft. Ava had learnt her lesson. Always keep things she used in a good place.

About The Author

My name is Ruby. I am eleven years old. I am from Australia. In my spare time I like to play netball, go on holidays and read. I also enjoy writing books. I was inspired to write this book when I learnt about Pakistan and how different it is to Australia, especially the poverty. My dream for the future is to get better at sports, particularly netball and running.

Blurb

The Missing Boot tells the story of two young girls. One of the girls, Ava quickly discovers her boot is missing on their mission to Mars. They both learnt a valuable lesson ...to put the things they love in a safe place so they don't lose them. Come along for the adventures that they face.
