

# THE TRIP INTO SPACE

*By Keira*

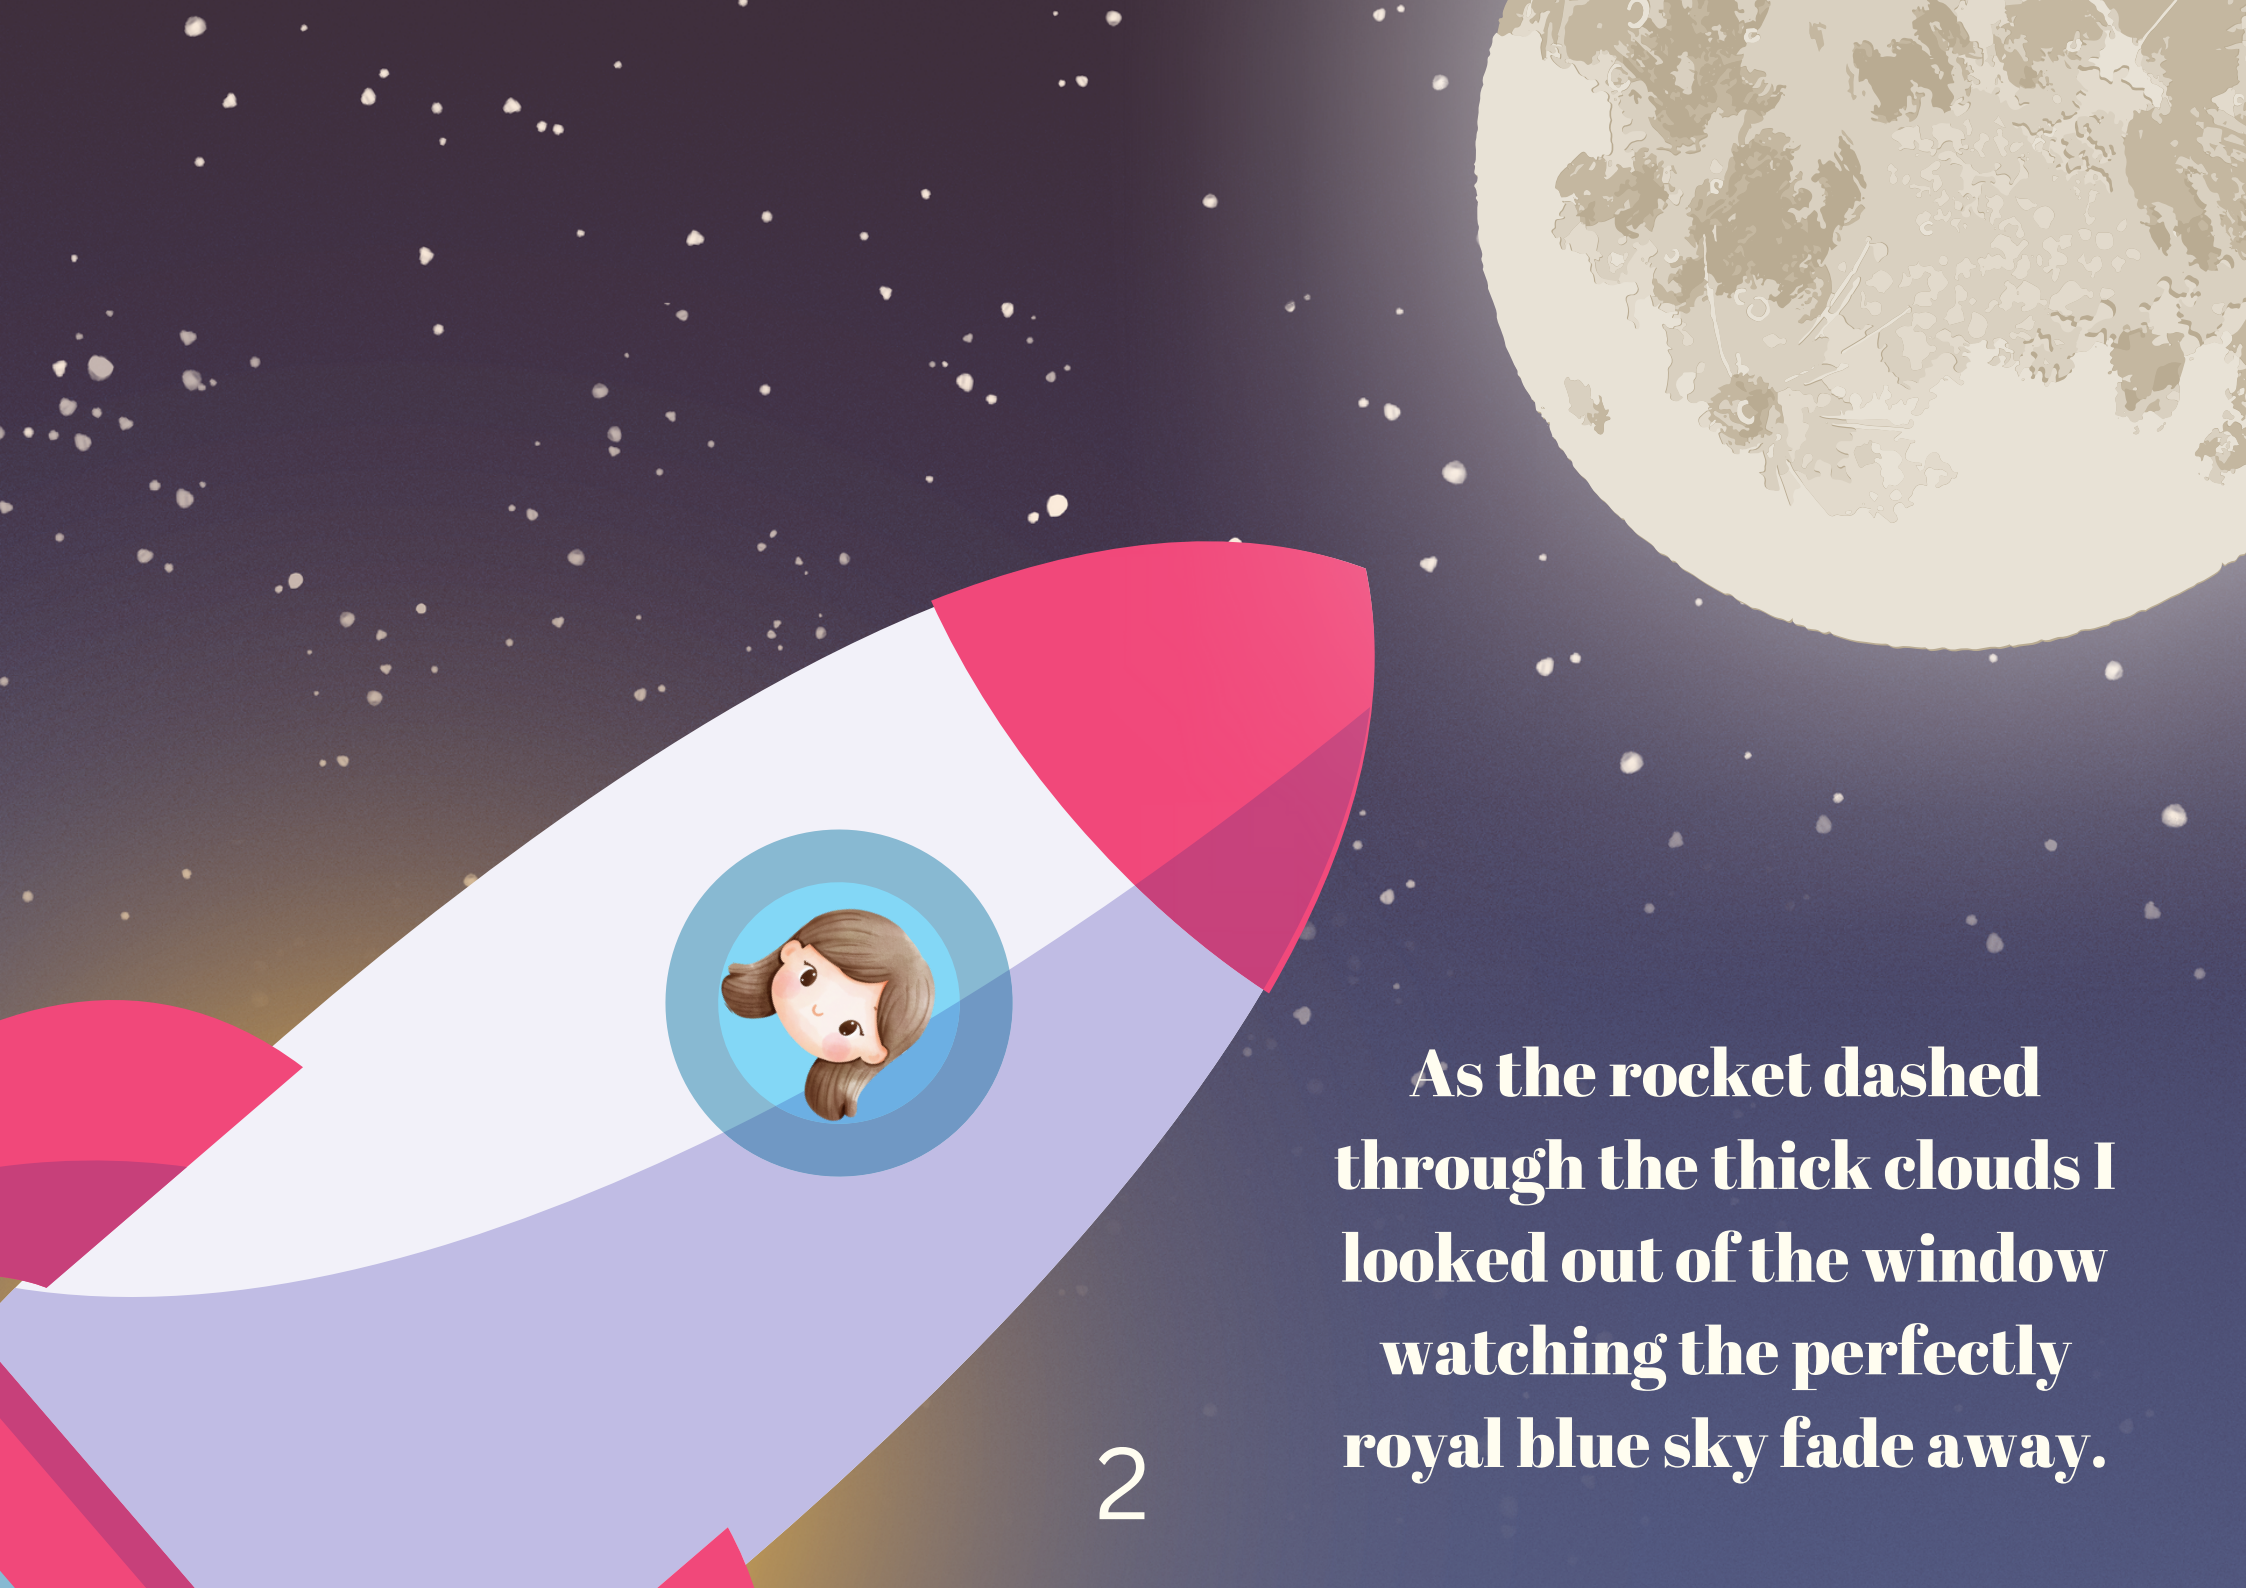

**5, 4, 3, 2, 1 BLAST OFF!!!,  
Those were the last words I  
ever heard on Earth ...**

**As the rocket dashed through the thick clouds I looked out of the window watching the perfectly royal blue sky fade away.**

**At that moment it occurred to me that this, this is it...I CHLOE SMITH WILL BE THE FIRST PERSON TO PUT A COW ON THE MOON!!!**

**After many black skies and shimmering stars  
Olympia the cow and I had made it to the  
magnificent glowing Moon.**

**When I was finished admiring the view I took my first step on the powdery surface. It was so magnificent that I almost forgot about Olympia**

**So I unbuckled her seat belt and led her to  
experience the wonders of the Moon.**

**Time went on and we had to leave to go back to our humble home on Earth. But, as soon as I stepped foot on my rocket I saw a green dot bolt past at rapid speeds.**

**At first, I thought I might have been going insane because of my lack of oxygen,  
but then the peculiar green dot appeared right in front of my petrified face...**

**“HI” it whispered to me...**

**The bizarre green dot seemed to be a mysterious alien. The alien looked as green as a forest with skin as bumpy and textured as a toad. I was still traumatized when the alien asked me if I was ok. I responded 'yes' but I really wasn't.**

  
**I come from  
Saturn**

**I soon worked out his name was  
Winston and he came from a  
gigantic planet called Saturn. He  
was a very witty and extremely  
bubbly alien.**

**Soon after we had chatted ,Winston came to me and asked if I would join him on a trip back to his beloved home in Saturn. He assured me that we could take Olympia with us and we could then go back to Earth straight after the visit.**

**My brain didn't even have to think,...of course I would go with him: it was a once in a lifetime opportunity! I followed Winston to his rocket with Olympia behind me.**

**Winston's rocket was massive and bulky made out of a polished metal that shined brightly.**

**The stars surrounding us  
were glittering in the sky  
as we zoomed and  
travelled to the mighty  
Saturn.**

**When we finally made it I couldn't believe my eyes. Was this true? Was I on Saturn? The one and only Saturn?**

**I stepped off the rocket and was astonished by Saturn's beauty I couldn't stop staring at the wonderful purple ground and the fantastic mountains that stood out in the distance.**

**My happiness was cut short soon after we arrived when Winston told me his rocket was broken...**

**Winston exclaimed it was impossible to repair so Olympia and I would unfortunately never make it back to Earth.**

**I cried for hours and hours and even Olympia was mooing for help. I wasn't ready to let go of my dear life on Earth but I knew I had no other choice. I had to face the horrifying fact that I would never make it back home.**

**After three weeks I had settled in well and met some new friends. Olympia also made some other wacky alien friends. Life was pretty good on Saturn and each day I was excited for a new adventure.**

## **ABOUT THE AUTHOR**

**My names Keira, I am twelve years old and live in Australia. My hobbies and interests include creating art, playing basketball and watching movies with my friends. I was inspired to write this book to raise money for the less fortunate people around the world. My dreams for the future are to live in a safe, happy and peaceful world where anyone can become whatever they want to be.**

**"The Trip Into Space' is an adventurous story of a young girl, Chloe, experiencing many different, fascinating and extraordinary places, objects and people in our universe. As well as meeting new friends, Chloe learns that being kind to others is the most important thing in life. This story will make your brain twist and turn with curiosity while reading all about the crazy and marvellous events and adventures Chloe embarks on.**
