

# The Wizards of the Woods

find the ghost on every page

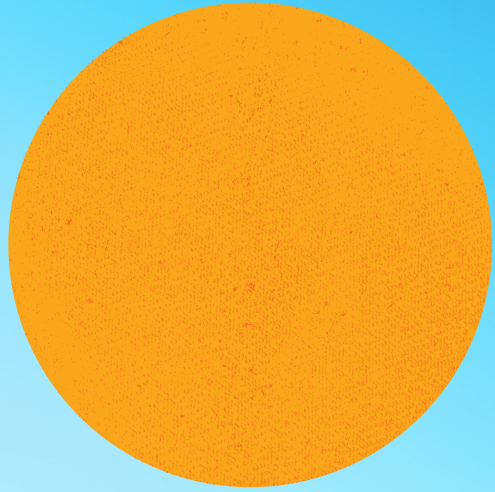

by Etta

Luna and her dragon were sitting in the meadow waiting for her friends to come.

1 minute later... 10 minutes later... 30 minutes later...  
60 minutes later "We are waiting for you!" said Luna.  
"We can just go home."

They went up the mountain and across the river  
to a magic castle called Hogwarts.

Luna said, "Wait a minute. Look, her dragon is sleeping with her teddy. It is adorable."

"No Luna you have to get back on track to find your friends. they have to be in the woods" she said to herself.

So Luna went this way and that way and she saw them, Harry and Rida. "I missed you so much but who stole you? "

"Voldemort" said Harry, "Don't tell anyone though",

"Ok" said Luna, " Let's go home Harry"

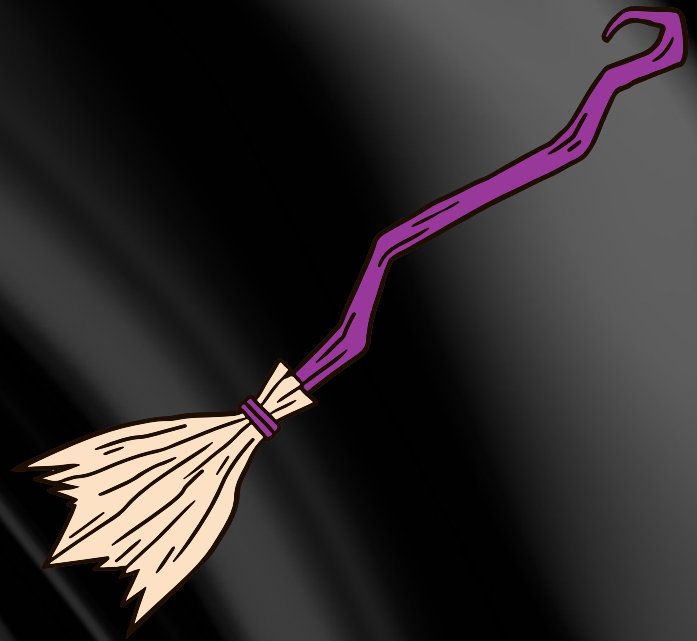

"Definitely" Rida replied.

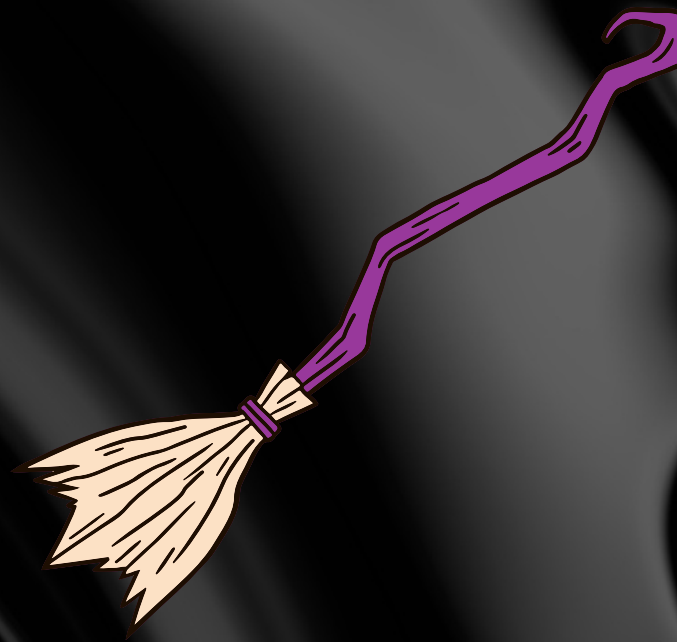

So they went home and snuggled up in Luna's soft bed and cuddled.

"Today was very weird and scary but even if it was scary and weird we will always have courage", said Luna  
The End

Did Luna find her friends and did she find  
out who stole them?

This story is about having courage...and  
what happens when we face our fears!
