

WHERE'S MY MATH BOOK?

Written & Illustrated by,
DANIEL MAMMEN MATHEW

Dedicated to my parents
and sister for encouraging
me in my story telling.

And to my grandparents
for their love and support.

So one day in math class...

Wait, first let me introduce myself.

Hi !! My name is Daniel. I live in Dubai, which is in the United Arab Emirates in Asia.

I study in a school in Sharjah. I am in grade 4. I have two friends Tom and David.

Tom is good at geography and David is intelligent.

Let me tell you about an incident that happened to me in grade-3.

So one day in Math class, on an ordinary day in school, Ma'am asked to see our books for correction.

Tom had some incomplete work and he asked for my book.

I got up and went to my shelf to get it for him.

But when I looked in my
shelf....

I realised....

My notebook
was not
there!!!

I panicked so much !!!

My teacher saw me
worried she
asked, "Daniel, what
happened ?

I told my teacher about the
problem.

Then she told me to check in every shelf to see if my notebook was there, because in my class someone or the other's notebook or textbook is missing everyday.

I searched for it every chance I had free time. But it was still missing.

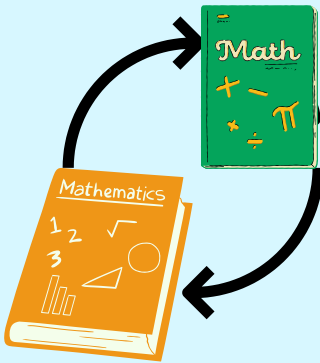

Tom & David also helped look for it .

I even told my parents. We searched a lot at home...but they too could not find it!

SUN	MON	TUE	WED	THU	FRI	SAT
			1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
19	20	21	22	23	24	25
26	27	28	29	30		

Like this a month passed and still the book was missing

And during this time I used another book to write my math work.

Then on a Saturday, I had online math class.

I was in my room sitting at my computer.

When ma'am showed some sums on the screen, I quickly looked for my rough book to work out the sums .

When I found my rough book,
guess what was under it ???

**My math
book!!!**

I found my math book under a pile of books that I searched about ten times!

I was happy I found my book, but then came the hard part.

I had to redo every single page of work I missed in my book!

My parents could not believe it. They had seen the same book before but we all thought it was last years math book.

Tom & David were happy I found the book but mad that they wasted time looking for it !!

So, there you have the story about my math book getting lost and found.

Bye, I must go, I'm late for math class. I don't know what my teacher will say.

About the author

I am Daniel Mammen Mathew
and I am from Kerala, India.

I like badminton and I love
reading books.

This story is based on a true
story. I hope it makes you laugh.

WHERE'S MY MATH BOOK?

A story about loosing a book
and finding it in a silly place.
Help came from many people
and finally where did I find it
???
