Vianna is a friendly girl who loves

Once upon a time in  
a dark mystical  
forest there lived a  
girl called Brianna.

She enjoys going into the  
woods and spend time  
there alone. Sometimes  
her friends Timon and  
Vianna join her.

One fine day, while  
she was playing  
with her cat, her  
sister approached  
and asked, 'Oh!  
Brianna, can you get  
some woods from  
the forest?'

Brianna said 'ok' and  
away she went.

When she was enjoying her walk, she fell into a deep pit in which she could not climb up. After trying for so many hours she was finally able to reach out with great effort.

A stylized illustration of a person running through a forest at night. The person is shown in silhouette, running along a dirt path that winds through a lush green landscape. The forest is filled with tall, dark trees and dense foliage. In the background, rolling hills are visible under a dark blue night sky with a few stars. The overall mood is dark and mysterious.

By the time she reached out, it was dark and gloomy which made her run home fast. She reached home in a blink of an eye and just lied on her bed out of tiresome.

The next day when she opens her eye, she sees her sister in front of her asking for the wood. The puzzled Briannah remembers that she left them back in the pit. But she never wanted to explain that to her sister.

Few years later Briannah, Timon and Vianna  
went for a camping to the woods.

They found a perfect stream on their  
way to freshen up and to have their brunch.

The walk continues to the woods to find  
a perfect place for camping.

In a while Vianna realized  
that they were missing  
something around. it was not  
a thing, they actually lost  
Briannah.

They ran here and there and shout out loud, “Briannah where are you.....? Can you hear us....?” No reply they got. The worried friends started sobbing and being helpless in the middle of the woods.

Suddenly Timon remembers the pit Briannah was telling some years back. He pulls Vianna and runs faster as he could to find the pit. Sadly, she wasn't in.

They made a wish that by the time the sun rises their friend to be back with them. The daylight dims and night falls. The hungry and tired children fall asleep on the ground failing to find their friend Briannah.

On the other side, Briannah is stuck inside the cave. It was looking fascinated and has attracted her into it. It made her forget her friends. She lost herself in the mesmerizing beauty of the cave.

She saw some tiny holes which allowed sunlight in , and realizes that it was fading. She could not come back due to the darkness. She fell asleep in the cave with no option.

The sunlight falls again.  
Realizing her mistake,  
Briannah shout out loud,  
“Timon... Vianna... Can you  
hear me.....? I’m in the cave  
near the stream... Help  
me...”

The echo from the cave was so loud and clear. They both ran fast to find their friend.

They were very happy to find their friend and they did not believe their wish will come true in overnight.

The hungry children opened their food. But they ended up eating only the biscuits as Timon's pizza was no longer fresher but was stale and stinky.

The children learned a lesson how important it is to stay together when they are out of home to avoid miserable situations.

Briannah decided not to come to the woods alone ever again as she has two nightmares to haunt her for her lifetime.

They reached home safe and  
had a good meal and a nap  
thinking how blessed they  
were to have caring friends.
